Medeco Nexgen XT

Medeco Nexgen XT is a complete electronic locking system providing *Controlled Access*, *Accountability*, *Physical Security*, and *System Management*. More than just a way to protect your property, equipment and assets, Medeco Nexgen XT is also a business tool that can lead to a substantial return on investment.

Controlled Access - Keys are electronically programmed to open only specific locks during a designated schedule. Schedules may also contain an expiration point to completely disable the key until it is audited and reprogrammed.

Accountability - Audit information recorded in both the lock and key shows a time-and-date stamped record of every event, including authorized accesses and unauthorized attempts.

Electronic Rekeying & Scheduling - Respond quickly to security threats, lost or stolen keys, or personnel changes without the added cost of changing your locks and keys.

Easy Installation - Medeco Nexgen XT key provides all power to the cylinder, eliminating the need for any hard wiring or power supply. Simply remove the existing mechanical cylinder and install the Medeco Nexgen XT cylinder.

Physical Security - Medeco Nexgen XT products add a wide variety of intelligent features without compromising on physical security. Attack-resistant design and tamper-proof features provide strong protection against forced entry.

Efficient System Management - Medeco Nexgen XT software contains tools that will help you manage your security more efficiently. Flexible programming, scheduled access and full audit reports are offered with the convenience of stand-alone or web-based software.

Unlimited Applications - Medeco Nexgen XT cylinders are available to fit nearly any application or hardware type for enhanced security and accountability.
